

Our Solar System

| | | |
|--|--|--|
| <input type="checkbox"/> The Outer Planets Create a drawing or model of an alien that could survive on one of the outer planets in our solar system. Label all adaptations and how they help with its survival. | <input type="checkbox"/> Other Bodies in Our Solar System You have decided to take a journey through our solar system but can only visit a comet, meteor, or asteroid. Create a scrapbook for your journey, and include why you chose that body over the others. | <input type="checkbox"/> The Inner Planets Write and perform a play in which the main characters are the inner planets. Be sure the characteristics of each planet come through in the play. |
| <input type="checkbox"/> The Inner Planets Develop an informational science video on the inner planets and their characteristics. | <input type="checkbox"/> Free Choice: The Outer Planets (Fill out your proposal form before beginning the free choice!) | <input type="checkbox"/> Other Bodies in Our Solar System Create Three Facts and a Fib about meteors, meteorites, and meteoroids. |
| <input type="checkbox"/> Other Bodies in Our Solar System A new space book is being published called <i>Space Rocks!</i> It is about the various rocks in space: comets, meteors, meteoroids, and meteorites. Create a book cover for this new book. | <input type="checkbox"/> The Inner Planets A space travel company has decided to offer "inner planet" trips. Create a commercial promoting the various inner planet destinations. | <input type="checkbox"/> The Outer Planets The president has decided to make a space colony on one of the outer planets. Create an argument for the planet he should choose and why. State your argument in a letter to the president. |

Check the boxes you plan to complete. They should form a tic-tac-toe across or down.
