

& Grading in PowerSchool

Welcome to Quarter 4 where we will begin using CK12 to assign you points in PowerSchool.

There are three types of assignments that will count in the PowerSchool (for the week of 4/6, you may not have all of these types of assignments this week):

Other types of assignments are being developed and grading will be communicated prior to their arrival.

CK12 **Practice** Problems Scoring Rubric

Goal: You should work through the practice problems until you get 10 problems correct
Completed practice is worth a total of 15 points (in PowerSchool)
Once completed, and “turned in” you will receive feedback on your level via the wheel icon:

See the **Scoring Rubric** below:

When you earn a 100% (which indicates you answered ten questions correctly) on the practice problems you will earn one of the following levels and corresponding point value:

Beginning	11 points
Exploring	12 points
Developing	13 points
Proficient	14 points
Mastery	15 points

If you do not complete the practice problems you will earn 0 points

****Remember that you can continue working on the problems until you score a 100%, and you are able to resubmit your work if need be*****

**CK12**

Goal: Interact with the PLIX and complete the “challenge me” segment
Completed PLIX will be worth a total of 3 points (in PowerSchool)
Once Completed “turn in”

**CK12**

Goal: Watch the video and take notes if directed by your teacher
Viewed videos will be worth a total of 3 points (in PowerSchool)
Once viewed “turn in”
