

Snowball

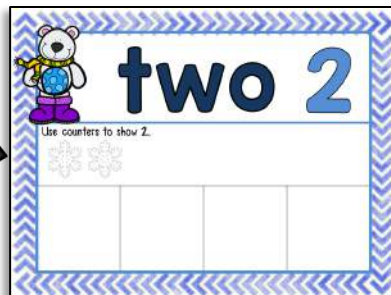

Number Mats

by Jamie White

Instructions:

1. Print the number mats on cardstock and laminate.
2. Provide cotton balls, counters, or other small manipulatives.

3. Print, laminate, and cut apart the snowball pieces. There are four for each number mat.
4. Students count the objects on the cards and place each one on the correct number mat. (To begin, offer only 2 or 3 mats and corresponding pieces.)

Additional mats are provided at the end for older students who do not need counting support for the manipulatives
